7. Discussion regarding the Valley Fair to be held at Birmingham High School from June 17 – 20, 2010 – Possible Motion – Bernardoni

David Honda speaks about the Valley Fair. About 700 parking spaces available for the event. Should be sufficient for the event. Event is funded by the state. Hours are from 4-9 p.m. on Thursday, 4-10 p.m. on Friday, and 11 a.m. to 10:30 p.m. on Saturday. Free entry for the children on Thursday. \$5 for adults. \$4 for ages 11 and over. No car show. Trying to get petting zoo. Mostly carnival rides and food vendors. LBNC can have a booth at the event.

Mr. Honda takes questions and comments from stakeholders Linda Schwering and Glenn Bailey.

LBNC would like the fair information to advertise the event as taking place in Lake Balboa, not Van Nuys. In order to avoid traffic problems, there should be no other event scheduled on those days. The spaces should be available for parking. Encourages fair organizers to advertise availability of public transportation on the Orange Line.

NO MOTION

8. Motion to support the Soledad Canyon High Desert, California Public Lands Conservation and Management Act of 2009 – Motion – Leffert

Motion by Steve Leffert:

“that LBNC support HR4332 and complete the supporter form as an organization and send it to the appropriate authorities.”

Clay McFarland seconds.

Vote: Approved (8-0-1). Chair abstains.

9. Motion to oppose DWP rate fee increases without neighborhood council input – Motion – Leffert

Motion by Steve Leffert:

“Whereas the latest LADWP proposed electric rate increase was to promote renewable energy, reduce the carbon footprint, and create green jobs,

And whereas the proposed DWP rate increase was for 37% over the next four years,

And whereas the electric rates would have increased 9-28% beginning soon,

And whereas the proposed rate increases were never sent to the Neighborhood Councils for review and advise,

And whereas the DWP has historically transferred large sums of money to the city's general fund and had promised to transfer a total of \$230 million this year,

And whereas the DWP was to transfer \$73 million to the deficit strapped LA City general fund,

And whereas the City Council initially approved a 4.5% increase,

And whereas the LADWP then countered with a proposed 5.7% increase,

And whereas the City Council rejected that increase,

And whereas the LADWP has now breached its commitment to transfer cash, as it does each year, from its account to the city's general fund,

And whereas the LADWP has not made efforts to reduce its costs by means of negotiating with its employees salary reductions or furlough days,

I, therefore move that the Lake Balboa Neighborhood Council communicate via letters/email to Mayor Villaraigosa and our City Council representatives Tony Cárdenas and Greig Smith, and the rest of the L.A. City Council:

- **to oppose any electric rate increases until the LADWP has cut its own budget by at least 10%**
- **that those savings be transferred to the city's general fund**
- **that any increase in electric rates be earmarked expressly for replacing coal fired power stations with renewable sources of electrical energy including, but not limited to wind, solar voltaic, and geothermal.**
- **that the Mayor be asked to replace the members of the DWP Board with members who would not hold the City hostage over the \$73 million that was promised and would see to the cuts in DWP internal costs via negotiated pay reductions and/or furlough days.”**

Lisa Reveen seconds.

VOTE: Approved (8-0-1) Chair abstains.
